 Type of Grant/duration of funding

Select the type of grant you are applying for. The New Investigator Grant is \$200,000 for a period of up to four years. The Proof of Concept Grant is \$100,000 for a period of up to three years.

- New Investigator Grant (up to 4 years)
- Proof of Concept Grant (up to 3 years)

 Did you submit a Letter of Intent for the Proof of Concept Grant?

Yes

No

 If you did not submit a Letter of Intent with the deadline date of July 24th 2024, you are not eligible to apply for the Proof of Concept Grant

 Were you invited to submit a full proposal for the Proof of Concept Grant?

Yes

No

 If you were not invited to submit a full proposal, then you are not eligible to apply for the Proof of Concept Grant

 Project Category

Please select the area of research that best aligns with your project proposal.

Biomedical & Discovery

Quality of Life & Care

 Lay Summary of Research Proposal

Please note that the lay summary of your application will be reviewed and scored by a person with dementia, a caregiver, and/or client services staff for clarity and relevance. This will be included as part of the overall evaluation of your application. Please write the lay summary in English. The lay summary should first address each of the following questions: **Background:** What do we already know about the problem? **Objective:** What question does your study address? **Method:** How will the research be carried out? How is this different from previous studies? **Implications:** How will the anticipated results improve the lives of those affected by Alzheimer's disease and other dementias, or those at risk? **Relevance:** What is the relevance of your project to people with lived experience of dementia? When writing this summary, please avoid jargon, technical terms and acronyms. The intended audiences are the general public and potential donors. In the event that this application is funded, this summary, or an edited version of it, will be posted on the Society website. Please visit the 'Resources' page of the ASRP Survey Monkey Apply platform to find the [How to write in Plain Language tool](#). Please visit the 'Pages' section of the ASRP Survey Monkey Apply platform to find previous examples of lay summaries. Please review the *Alzheimer Society's website for the Canadian Charter of Rights for People with Dementia* [person-centered language guidelines](#)

 Grants lay summary - Background (75 words max.)

What do we already know about the problem?

---

---

---

 Grants lay summary - Objectives (75 words max.)

What question does your study address?

---

---

---

 Grants lay summary - Methods (75 words max.)

How will the research be carried out? How is this different from previous studies?

---

---

---

 Grants lay summary - Expected outcomes/Implications (75 words max.)

How will the anticipated results improve the lives of those affected by Alzheimer's disease and other dementias, or those at risk?

---

---

---

 Grants lay summary - Relevance (75 words max.)

Explain the relevance of your project to a person with lived experience of dementia, such as a person living with dementia, a caregiver, and/or a front-line staff.
