Project title - awards

Type of Award

Select the type of award you are applying for. Maximum duration of funding support is 3 years for doctoral awards and 2 years for postdoctoral awards.

- Doctoral (3 years)
- Postdoctoral (2 years)

Choose funding Priority:

* **SELECT THE SAME PRIORITY AS SELECTED IN COVER FORM**
Discovery - Basic science investigations supporting novel and innovative research which examines the biological mechanisms of dementia.
Policy and Health Systems Change - Examining how Society collectively achieves health goals related to dementia and how those processes contribute to the development of policy.
Evaluation of Community Programs - Using research methodology to assess processes and programs that impact the lives of those living with dementia.
Ethical and Legal Issues - Considering the medical, legal and social support that is required by people living with dementia in order to live a better quality of life.

- Discovery
- Other forms of basic science (i.e. cause, risk, prevention, etc.) _____
- Evaluation of Community Programs
- Policy and Health Systems Change
- Ethical & Legal Issues
- Other research to improve quality of life (i.e. technology, social science, psycho-social, epidemiology, etc.)

Engagement of People with Lived Experience

The Alzheimer Society of Canada strongly encourages the involvement of people with lived experience (people living with dementia and/or their caregivers) in research. Please explain how you plan to involve people with lived experience in your research, at what level (e.g., as collaborators, in design, as study participants, etc.), and the importance of this involvement to your project. If you do not plan to include people with lived experience in your research, please justify this decision and make clear why this is not feasible (100-300 words).

 **ASRP/Fonds de recherche du Québec – Santé (FRQS) Award**

Candidates for FRQS funding opportunities must submit applications both to FRQS and to the ASRP. Research supported under this Program must be carried out at a university or allied institution within the province of Quebec. Postdoctoral Fellows who are seeking training not available in Quebec may conduct their research anywhere in Canada.

Yes

No

 **ASRP/New Brunswick Health Research Foundation (NBHRF) Training Award**

Applicants based at institutions in New Brunswick may be eligible for this award. Please consult the requirements detailed in the 2020-2021 ASRP Application Guidelines.

Yes

No

 **ASRP/AGEWELL Award**

Please consult the 2020-2021 ASRP Guidelines for more information regarding this award's requirements and eligibility.

Yes

No

 Other agencies to which applications for support has been or will be made:

 **Financial Officer**

This is the individual, at your institution, who would administer award funds. If you are uncertain, consult your supervisor.

 Date, or anticipated date, of enrollment in Ph.D. (or M.D.) program:

 Date, or anticipated date, of completing Ph.D. (or M.D.) degree:

For postdoctoral award applicants: you will only be eligible if you completed your PhD anytime after May 2020 (18 months from this competition close date). Those with exceptions like parental leave, please indicate in the comment box what date you completed your PhD and when you were on leave.

 Postdoctoral award applicants with leaves of absence:

 Proposed project start date (July 1, August 1, September 1, or October 1)

 Scientific Summary of Research Proposal

The objective(s), rationale, hypotheses, research plan and the significance of the study should be summarized here. The summary must include a clear explanation of the relevance of the proposed project to Alzheimer's disease and related dementias. Maximum: 500 words.

 Summary of Research and Career Goals

Response should include, but not be limited to: a) a summary of previous studies or activities that are relevant to the present proposal; b) a description of how this (or other) previous experience may have shaped current research interests; and, c) a statement of how an ASRP award could lead to a research career in Alzheimer's disease and other dementias. *For **Doctoral** Award applicants - please share your research question from your current PhD thesis, and explain how it relates to the proposed research question within this ASRP application.**For **Postdoctoral** Award applicants - please explain what additional experience you are hoping to acquire through your postdoctoral fellowship, and how is it aligned with the proposed research you are submitting within this ASRP application. Maximum: 750 words.

Research Institution (1) _____
Research Institution (2) _____
Email _____

 1) Animal Research:

In the case of animal experimentation, lab procedures must conform to the Guiding Principles for Animal Experimentation as enunciated by the Canadian Council on Animal Care.

- Statement included
- Statement to be sent
- Not applicable

 2) Human Research:

In the case of human experimentation, the proposed research must be reviewed in a manner which conforms to the guidelines as outlined in the Tri-Council Policy Statement, "Ethical Conduct for Research Involving Humans". Projects that utilize discussions, sometimes audio or video-recorded, involving patients, care-givers, family members, and associated health professionals, may touch on issues that can be considered private or confidential. In these instances the applicant must provide a written assurance that agreement to obtain and use this information was given by the persons concerned.

- Statement included
- Statement to be sent
- Not applicable

 3) Biological and Chemical Hazards

Where biological and chemical hazards are involved in the proposed research, documentation must be provided demonstrating that the procedures meet the requirements as outlined in Health Canada's Laboratory Biosafety Guidelines.

- Statement included
- Statement to be sent
- Not applicable
