 **Engagement of People with Lived Experience**

The Alzheimer Society of Canada strongly encourages the involvement of people with lived experience (people living with dementia and/or their caregivers) in research. Please explain how you plan to involve people with lived experience in your research, at what

level (e.g., as collaborators, in design, as study participants, etc.), and the importance of this involvement to your project. If you do not plan to include people with lived experience in your research, please justify this decision and make clear why this is not feasible (100-300 words).

 ASRP/New Brunswick Health Research Foundation (NBHRF) Grant

Applicants based at institutions in **New Brunswick** may be eligible for this grant. Please consult the requirements detailed in the ASRP Application Guidelines and indicate below if you would like to be considered for the ASRP/NBHRF Grant.

 Scientific Summary of Research Proposal

The objective(s), rationale, hypotheses, research plan and the significance of the study should be summarized here. The summary must include a clear explanation of the relevance of the proposed project to Alzheimer's disease and related dementias. Max: 500 words

 Response to Previous Reviews

If a version of the present application has been submitted previously to the Alzheimer Society Research Program, but was not funded, the applicant must respond in the space below to the comments of previous reviewers. The response should stand alone, i.e., not require reference to any other documents, including the previous application. Max: 750 words

 How many co-investigators do you have (for Proof of Concept Grant applicants only)?

All co-investigators must meet the same eligibility criteria as the Principal Investigator.

 Budget justification

Briefly describe the roles of research personnel, including rationale for their qualifications and salary. Itemize equipment, experimental animals, materials and supplies and any other expenses. Provide travel details, including purpose of trip(s) and destination(s) and who will travel. Note: In accordance with the policy of the Health Charities Coalition of Canada (HCCC), the ASRP does not fund indirect costs (i.e. costs associated with the administration of the grant and/or the maintenance of the lab – heating, lighting etc.)

 1) Animal Research:

In the case of animal experimentation, lab procedures must conform to the Guiding Principles for Animal Experimentation as enunciated by the Canadian Council on Animal Care.

- Statement included
- Statement to be sent
- Not applicable

 2) Human Research:

In the case of human experimentation, the proposed research must be reviewed in a manner which conforms to the guidelines as outlined in the Tri-Council Policy Statement, “Ethical Conduct for Research Involving Humans”. Projects that utilize discussions, sometimes audio or video-recorded, involving patients, care-givers, family members, and associated health professionals, may touch on issues that can be considered private or confidential. In these instances the applicant must provide a written assurance that agreement to obtain and use this information was given by the persons concerned.

- Statement included
- Statement to be sent
- Not applicable

 3) Biological and Chemical Hazards

Where biological and chemical hazards are involved in the proposed research, documentation must be provided demonstrating that the procedures meet the requirements as outlined in Health Canada's Laboratory Biosafety Guidelines.

- Statement included
- Statement to be sent
- Not applicable
