 Type of Grant/duration of funding

Select the type of grant you are applying for. The New Investigator Grant is \$200,000 for a period of up to four years. The Proof of Concept Grant is \$100,000 for a period of up to five years.

- New Investigator Grant (up to 4 years)
- Proof of Concept Grant (up to 5 years)

 Choose funding priority:

**Discovery** - Basic science investigations supporting novel and innovative research which examines the biological mechanisms of dementia. **Policy and Health Systems Change** - Examining how society collectively achieves health goals related to dementia and

how those processes contribute to the development of policy. **Evaluation of Community Programs** - Using research methodology to assess processes and programs that impact the lives of those living with dementia. **Ethical and Legal Issues** - Considering the medical, legal and social support that is required by people living with dementia in order to live a better quality of life.

- Discovery
- Other forms of basic research (i.e. cause, risk, prevention etc.) \_\_\_\_\_
- Policy & Health Systems Change
- Ethical & Legal Issues
- Evaluation of Community Programs
- Other research to improve quality of life (i.e. technology, social science, psycho-social, epidemiology, etc.)

#### Lay Summary of Research Proposal

Please note that the lay summary of your application will be reviewed and scored by a person with dementia, a caregiver, and/or client services staff for clarity and relevance.

The lay summary should first address each of the following questions: **Background:** What do we already know about the problem? **Objective:** What question does your study address? **Method:** How will the research be carried out? How is this different from previous studies? **Implications:** How will the anticipated results improve the lives of those affected by Alzheimer's disease and other dementias, or those at risk? When writing this summary, please avoid jargon, technical terms and acronyms. The intended audiences are the general public and potential donors. In the event that this application is funded, this summary, or an edited version of it, will be posted on the Society website.

Please visit the 'Resources' page of the ASRP Survey Monkey Apply platform to find the [How to write in Plain Language tool](#). Please review the *Alzheimer Society's website for the [Canadian Charter of Rights for People with Dementia person-centered language guidelines](#)*

#### Grants lay summary - Background (50 words)

What do we already know about the problem?

---

---

---

#### Grants lay summary - Objectives (50 words)

What question does your study address?

---

---

---

#### Grants lay summary - Methods (50 words)

How will the research be carried out? How is this different from previous studies?

---

---

---

#### Grants lay summary - Expected outcomes/Implications (50 words)

How will the anticipated results improve the lives of those affected by Alzheimer's disease and other dementias, or those at risk?

---

---

---

#### Proof of Concept applicants ONLY

Please complete this page if you are applying for a Proof of Concept grant. **These Cover Form Submission Proof of Concept responses are reviewed in the Proof of Concept Pre-Screen process.** Note: it is imperative to the Proof of Concept grants

program that your project is focused on challenging new directions in research into Alzheimer's disease and other dementia. The Proof of Concept Grant will support investigators with innovative, high-risk, high-yield explorations into dementia research. The maximum amount awarded is a maximum of \$100,000 for a period of up to five years. Please refer to the [ASRP 2020-2021 Guidelines](#) for more information. **Proof of Concept grants are *pre-screened* to ensure they meet the requirements/eligibility described in the Guidelines. Only those grant applications that are truly *Proof of Concept* will be forwarded for a full review by peer reviewers and citizen reviewers.**

 1. Please explain how this is a proof of concept (up to 3 sentences)

---

---

---

 2. What is the challenging new direction that is being addressed? (up to 3 sentences)

---

---

---

 3. What is the potential risk associated with this proposal? (up to 3 sentences)

---

---

---

 4. What is the potential reward that will result from the expected outcome? (up to 3 sentences)

---
