Project title - awards

Type of Award

Select the type of award you are applying for. Maximum duration of funding support is 3 years for doctoral awards and 2 years for postdoctoral awards.

- Doctoral (3 years)
- Postdoctoral (2 years)

Choose funding Priority:

* **SELECT THE SAME PRIORITY AS SELECTED IN COVER FORM**
Discovery - Basic science investigations supporting novel and innovative research which examines the biological mechanisms of dementia.
Policy and Health Systems Change - Examining how Society collectively achieves health goals related to dementia and how those processes contribute to the development of policy.
Evaluation of Community Programs - Using research methodology to assess processes and programs that impact the lives of those living with dementia.
Ethical and Legal Issues - Considering the medical, legal and social support that is required by people living with dementia in order to live a better quality of life.

Discovery

- Other forms of basic science (i.e. cause, risk, prevention, etc.) _____
- Evaluation of Community Programs
- Policy and Health Systems Change
- Ethical & Legal Issues
- Other research to improve quality of life (i.e. technology, social science, psycho-social, epidemiology, etc.)

Upload common CV

Create a Canadian Common CV (CCV) - using **ASRP** as the "*Funding Source*" and **Academic** as the "*CV Type*" - then upload the PDF here. To obtain a PDF of your CCV: "*Submit*" the CCV, then go to the "*History*" tab and download/save the submitted PDF.

Upload transcripts

- 1) Up-to-date, official & certified transcript(s) from the University or Institution must be uploaded here.
- 2) Electronic copies of foreign transcripts will be accepted and must be accompanied by a certified English or French interpretation and a clear explanation of the grading system. Please upload here.

 **ASRP/Fonds de recherche du Québec – Santé (FRQS) Award**

Candidates for FRQS funding opportunities must submit applications both to FRQS and to the ASRP. Research supported under this Program must be carried out at a university or allied institution within the province of Quebec. Postdoctoral Fellows who are seeking training not available in Quebec may conduct their research anywhere in Canada.

- Yes
- No

 **ASRP/New Brunswick Health Research Foundation (NBHRF) Training Award**

Applicants based at institutions in New Brunswick may be eligible for this award. Please consult the requirements detailed in the 2020-2021 ASRP Application Guidelines.

- Yes
- No

 **ASRP/AGEWELL Award**

Please consult the 2020-2021 ASRP Guidelines for more information regarding this award's requirements and eligibility.

- Yes
- No

 Other agencies to which applications for support has been or will be made:

 **Financial Officer**

This is the individual, at your institution, who would administer award funds. If you are uncertain, consult your supervisor.

 Lay Summary of Research Proposal

***PLEASE COPY AND PASTE YOUR LAY SUMMARY RESPONSES FROM THE AWARDS COVER FORM SUBMISSION.** Please note that the lay summary of your application will be reviewed and scored by a person with dementia, a caregiver, and/or client services staff for clarity and relevance. The lay summary should address each of the following questions: **Background:** What do we already know about the problem? **Objective:** What question does your study address? **Method:** How will the research be carried out? How is this different from previous studies? **Implications/Expected outcomes:** How will the anticipated results improve the lives of those affected by Alzheimer's disease and other dementias, or those at risk?

When writing this summary, please avoid jargon, technical terms and acronyms. The intended audiences are the general public and potential donors. In the event that this application is funded, this summary, or an edited version of it, will be posted on the Society website.

Please visit the 'Pages' section of the ASRP Survey Monkey apply platform to find [Plain Language writing tools](#). Please review the *Alzheimer Society's Canadian Charter of Rights for People with Dementia*. Please review the Alzheimer Society of Canada website for [person-centered language guidelines](#).

 Awards lay summary - Background (50 words)

What do we know about the problem?

 Awards lay summary - Objectives (50 words)

What question(s) does the study address?

 Awards lay summary - Methods (50 words)

How will the study be carried out?

 Awards lay summary - Expected outcomes/Implications (50 words)

How will the anticipated results improve the lives of those affected by Alzheimer's disease and other dementias, or those at risk?

 Scientific Summary of Research Proposal

The objective(s), rationale, hypotheses, research plan and the significance of the study should be summarized here. The summary must include a clear explanation of the relevance of the proposed project to Alzheimer's disease and related dementias. Maximum: 500 words.

 Summary of Research and Career Goals

Response should include, but not be limited to: a) a summary of previous studies or activities that are relevant to the present proposal; b) a description of how this (or other) previous experience may have shaped current research interests; and, c) a statement

of how an ASRP award could lead to a research career in Alzheimer's disease and other dementias. *For **Doctoral** Award applicants - please share your research question from your current PhD thesis, and explain how it relates to the proposed research question within this ASRP application.**For **Postdoctoral** Award applicants - please explain what additional experience you are hoping to acquire through you postdoctoral fellowship, and how is it aligned with the proposed research you are submitting within this ASRP application. Maximum: 750 words.

Upload research proposal

Research proposals must not exceed **2 single spaced pages**, written in 12 pt Times New Roman font with 2.54 cm margins. Tables, figures and references (in that order) are to be included at the end of the proposal and will not be counted towards the page limit.

The proposal must include a clear and concise description of the research plan, including the following:

- a) objectives;
- b) the purpose of the study (overall context of current knowledge and, where appropriate, preliminary findings);
- c) the assumptions or issues discussed;
- d) relevance to funding priority (if applicable);
- e) the approaches and methods that will be used;
- f) the expected results; and
- g) relevance to Alzheimer's and other dementias.

 1) Animal Research:

In the case of animal experimentation, lab procedures must conform to the Guiding Principles for Animal Experimentation as enunciated by the Canadian Council on Animal Care.

Statement included

- Statement to be sent
- Not applicable

 2) Human Research:

In the case of human experimentation, the proposed research must be reviewed in a manner which conforms to the guidelines as outlined in the Tri-Council Policy Statement, "Ethical Conduct for Research Involving Humans". Projects that utilize discussions, sometimes audio or video-recorded, involving patients, care-givers, family members, and associated health professionals, may touch on issues that can be considered private or confidential. In these instances the applicant must provide a written assurance that agreement to obtain and use this information was given by the persons concerned.

Statement included

Statement to be sent

Not applicable

 3) Biological and Chemical Hazards

Where biological and chemical hazards are involved, the proposed research must be reviewed in a manner which conforms to the guidelines as outlined in the Canadian Institutes of Health Research "Guidelines for the Handling of Recombinant DNA Molecules and Animal Viruses and Cells".

Statement included

Statement to be sent

Not applicable
